Hi, Rob.

That sounds great. Nobody else has responded, so I'll let you follow up with her and make any relevant arrangements.

BTW, I made some copies of your presentation, so don't feel as though you need to bring a lot with you.

Thanks!
Cynthia

Hi Cynthia -- I thought I'd write Katie and propose coming in to talk w/ them Wens a.m. Is that OK w/ you, or has someone already committed? I'm working a few hours in Boulder this morning before hitting the road. I'll bring some copies of the handout for the ARSG meeting/Availability Session/La Plata meeting. - Rob

>
> Is there a presentation happening on Tuesday that you think would be relevant to the students? We have science from 8-9 but let me know if there is another time that would work better. Or, would someone be able to come to the MS and give a presentation on Tuesday from 8-9 about the upper Animas watershed or Cement Creek specifically?
